FOR IMMEDIATE RELEASE

ESL Power Systems, Inc. Partners with France Based Company PROCONNECT

CORONA, California, July 2022 - ESL Power Systems, Inc. is pleased to announce an exclusive distribution agreement with PROCONNECT, a French manufacturer specializing in industrial connectors. This partnership will allow ESL to utilize and distribute PROCONNECT's premier low and medium voltage push-pull receptacles and plugs; harnessing the expertise from both companies and providing advanced Shore Power Solutions for Cruise, Ferry, Ports and Container Terminals across all Americas.

Together, ESL and PROCONNECT will offer safe, proven technology that is reliable, durable, and heavy duty for marine grade applications; in addition to offering compliance with local electrical regulations and codes.

This agreement grants ESL exclusive distribution in the Americas of PROCONNECT's products for marine applications such as electrification of container handling equipment (ERTGs, RMGs, STS), and shore power for containers, ferries, cruise terminals and other types of vessels. ESL's expertise and footprint in the market will offer PROCONNECT customers local stock, support, and technical assistance.

PROCONNECT CEO, Béatrice Barokhel states, "We are excited to be working with ESL and expanding PROCONNECT's reach for the port and maritime industry to the Americas. ESL's custom solutions, excellence in customer service and dedication to innovation fall in line with PROCONNECTS mission to serve our customers in a market that demands performance, timely delivery, and cost value."

ESL President, Marcelo Gonzalez shares PROCONNECT's excitement. "We couldn't be happier to work with a European company that supplies such a quality product to the port and shore power markets. We at ESL believe this partnership will provide our customers with the absolute best in quality connection for marine environments."
